

Chapter 7

Credentialing & Provider Demographics

The process that focuses on verification of adequate training, experience, licensure and competence, and the assessment of the data and information collected to determine if an individual or organizational applicant is qualified and competent to render acceptable quality of care to SelectCare/LaborCare members.

Chapter 7: Credentialing & Provider Demographics

Credentialing for SelectCare/LaborCare providers is performed by Medica's Credentialing Sub Committee. For more information on credentialing, please refer to <https://www.medica.com/providers/administrative-resources/credentialing>.
