"Medica has consistently been more than a source of funding support – they have stood with us, shoulder-to-shoulder, as meaningful, responsive partners to help us reduce mental and physical health disparities and barriers facing the more than 2,000 young people experiencing homelessness that we served annually. Through Medica's engagement with us, our mental health service delivery has grown and evolved. Their recent financial milestone investment will be transformative – the dream of aligning all intervention services through an Integrative Health Center model will come true."
